Fish Counter 690 Curved glass

CHARACTERISTICS

Tank made of AISI 316 scotch-brite stainless steel with 31 mm drainage hole (3/4") supplied with internal high density polyurethane foam insulation complete with removable perforated false bottom made of stainless steel. The tank is supplied with electronic digital thermometer, with a temperature display positioned on the public side.

The protection on the public side is characterized by 300 mm. high, 6 mm. thick curved tempered glass and by shockproof bar made of stainless steel. At the sides the tank is protected by two shaped edges made of AISI 316 scotch-brite stainless steel.

Overall dimension (mm) 2100x1152x1046h

Surface exposure (m²) 1,75

Tension (V) - Frequency (Hz) 230 - 50

Power compressor (kw) 0,67

Pressure (bar) 29,5

Cooling gas R404A

MODEL

690 BP 210 RC

The structure is made of AISI 304 scotch-brite stainless steel and is completely lined with curved panels, designed to be fixed to the floor, with supporting legs that can be opened to access the points of attachment and the tank drainage tube, which is completely hidden from view. The refrigerating unit is located inside of a slotted supporting leg. It is slotted to allow airing and can be accessed through a closing panel that can be opened.

MODEL

690 GP 210 RC

The structure is made of AISI 304 scotch-brite stainless steel and is composed by two supporting legs, that can be opened to access the points of attachment and the tank drainage tube, which is completely hidden from view, designed to be fixed to the floor.

The refrigerating unit is located inside of a slotted supporting leg. It is slotted to allow airing and can be accessed through a closing panel that can be opened.

MODEL

690 VP 210 RC

For those who want to realize a masonry structure, we can supply, together with the tank that include the refrigerating unit, all the instructions necessary for a perfect realization of the same (dimensions, height, drain position). The masonry structure allows, besides a total personalization, to reach a high hygienic level.
